February, March and April Months Due Now.

1996 and newer models

Only \$49.95

Did you Know?

You may do an inspection 2 months prior to your current expiration on your registration.

DOES YOUR CAR STEER STRAIGHT?

If your vehicle wanders because you have to consistently adjust the steering to keep your car going straight, or your steering wheel is not centered while driving on a straight road, you should call us to have your car road tested and checked to determine if an alignment is needed.

**SAVE \$10 OFF
YOUR FOUR WHEEL ALIGNMENT
ONLY \$69.95***

*Most Cars * Must Present This Coupon

Want to reduce gas & tire expenses?

If your suspension is out of alignment, your tires drag across the road.

This prevents your tires from rolling smoothly and creates road resistance. This resistance creates friction that wears your tires and requires over-steering to keep the car handling straight and more fuel to push the car forward.

**Have your car road tested by us twice a year to determine
if your car needs a four wheel alignment.**
